

Giralot è un sistema di piccoli ripiani/contenitore ruotanti a 180° su di un colonna che poggia a pavimento e fissata a muro. Complemento d'arredo versatile e multiuso, può nascondere o mettere in risalto gli oggetti contenuti. Trova la sua collocazione ideale in entrata ma anche in soggiorno per libri, cd/dvd, bottiglie e bicchieri o in bagno.

I ripiani in lamiera piegata e laccata sono schermati da un pannello in MDF laccato disponibile in tre diverse misure, con o senza specchio. Il pannello più grande cela sul retro due ripiani e tre ganci per appendere abiti, borse od ombrelli; il pannello medio, può avere uno o due ripiani sul retro; quello piccolo, solo laccato, ha un ripiano.

Finiture *E' possibile comporre tra loro i vari elementi, ma devono sempre occupare l'altezza totale della colonna*

Giralot is a versatile storage system of container-like shelves that swivel 180° on a column that rests on the floor and is fixed to a wall. Individual shelves pivot to showcase, or hide, their contents. The system works well in entranceways, living rooms, kitchens and bathrooms for the storage of a wide range of objects including DVDs, books, and bottles. The shelves, made of folded lacquered steel sheet are backed with a lacquered medium-density fiberboard (MDF) panel in three sizes each with or without mirror surface. The largest panel has hooks on the inside for garments, purses and umbrellas. It comes with one or two shelves. The medium-sized panel comes with one or two shelves. The small panel, only lacquered, has one shelf.

Finishings *It is possible to combine the elements, but they have to occupy all the length of the column*
